

## *Georgia International Convention Center*

**Job Name:** Georgia International Convention Center  
**Customer:** City Of College Park – Atlanta, Georgia  
**Completion Date:** 2003

The new convention and meeting facility is the centerpiece of the planned Gateway Center complex, a 155 acre multipurpose commercial development adjacent to Hartsfield Atlanta International Airport. The 400,000 complex combines 150,000 SF exhibit hall space with 32 ft ceiling height, four (4) First class hotels, six (6) 2,000 SF suites, three (3) executive board rooms, one (1) VIP green room and 40,000 SF ballroom space. ECS successfully implemented the installation of the Staefa control system to control the heating and cooling equipment for over 450,000 SF.
